

## Meeting Minutes for 4/23/18

Goals: Demonstration of project, feedback on progress

### Notes:

- Recommendation to have an admin tool with an admin page that is capable of managing other users
  - should be able to delete or add users, toggle their privacy settings, view all of their data. This is not a requirement.
- Recommendation for users to have the ability to view other users' pins if they type in the username into the url.
- Users should have the ability to set privacy settings, the default is public.

### To-do:

- View a user's page and have the ability to upload an avatar.
- Create the survey and use the actual data to place pins on the map.
- Display the results of the survey on the side and on the map.
- Have the pins display a picture of the location and information about that location upon clicking the pin or the side list.
- Complete documents, print, sign, and consolidate for final review and presentation.
